

Skinlab, Stumble

The more I put you, believe thee or believe me
You didn't feel like you're the one that doesn't care
Yeah, could you mind and believe it's not forever
So tell me that the little think you aren't who you're under

Stumbling on one thing
Stumbling on one thing
One day you're stumbling, yeah!
You motherfucker, stumble

If I could jump right through your life
If I could scream right through your cries
And when I woke right over you
You're stumbling, you're fucking stumbling

Wake
You're stumbling
Wake
Yeah, you motherfucker, stumble

If I could live with no more lies
If I could scream right through your cries
And then I woke right over you
You're stumbling, you're fucking stumbling
