

Skinniman Dancing, Kamikaze Camel

Smoking up and getting high
hitting that thing like there's no tomorrow
why do you think I look like this?
Do you think there's something wrong with the crowd that I follow?

They keep on saying that I'm doing wrong
Keep on saying that my friends are all messed up
and everytime I'm at a party I'm just getting drunk
all the people get scared so they run away from us

But we don't mean to do the things that we do
we just get a little carried away, it's true
and everytime we're at a party we're just getting drunk
so don't try to tell me I should do better with my life.

See you laugh at me
Saying that I'm going nowhere with this
See you run away
Saying that I'm nothing but a fucking freak, well

I don't care if I live or die
it doesn't matter what I do it always turns out right
when I wake up in the morning I'm feeling fine so
Don't stand in front of me and steal my high.

But we don't mean to do the things that we do
we just get a bit carried away, it's true
and everytime we're at a party we're just getting drunk
so don't try to tell me I should do better with my life.

Everybody knows I'm in a self destructive mood
and in my head I'm always dying to the same old tune
hour after hour I'm just feeling the abuse
so I roll another spliff and try to get away from you

Why feel bad
Nothing in this world ever lasts forever
Why feel bad
Nothing in this world is gonna set me free

Waking up I'm still drunk
and I can't remember a thing from the night before
I'm feeling tired and I'm feeling sick
still I light a cigarette and I get on my feet
Eternal struggle just to get out the door
try to find my own way to that dead end job
but as soon as I'm there I'm just wanting to leave
Guess I'm getting tired from the same old shit.

But we don't mean to do the things that we do
we just get a little carried away, it's true
and everytime we're at a party we're just getting drunk
so don't try to tell me I should do better with my life.
