

Skip Marley, Calm Down

I thought we figured out how not to spill blood
I thought we figured out to walk away
I thought we found that love was not a failure
Decided that the sea would have no waves
And it kills me, cause:

I get worked up and
You get worked up
And we get worked up for nothing!
I get worked up and
You get worked up
And we get worked up, for what?

Calm down /4x

Is this the way
It is for other people?
I wonder if they feel like I do
I know there's more love than there's evil
A wall is just a waste of me and you
And it kills me, cause:

I get worked up and
You get worked up
And we get worked up for nothing!
I get worked up and
You get worked up
And we get worked up, for what?

Calm down /4x

Try to figure it out
We're people living in doubt
Brother look further
Take care of each other
Stressing over the bow
If needed then you can shout
My sister look further
Yes, You're the preserver
Try to figure it out
We're keep on living in doubt

I get worked up and
You get worked up
Stressing over the bow
If needed then you can shout
We get worked up for what?

Calm down /4x
