

Skold Vs. KMFDM, Alkohol

Stirred and shaken
Up on the rocks
Neat and straight
Never too late
Fill my cup and seal my fate

Name your poison , name your vice
Fuel the fire deep inside, revel in your own demise

Martini cocktail
Singapore sling
Guzzle sip gulp infuse
No excuse
Hail the Booze

Bottoms Up

Alcohol - Somebody's gonna get their face bashed in tonight
Alcohol - We don't need a fucking reason to start a fight

The devil goes
By many names
Ceremonious libation
Pure intoxication
Lets get basted
shit-faced
wasted

Name your poison , name your vice
Fuel the fire deep inside, revel in your own demise

A spirited muse
Distilled from passion
Superficially profound
A friend in need
A friend indeed
Heres to another round

Bottoms Up

Alcohol - Somebody's gonna get their face bashed in tonight
Alcohol - We don't need a fucking reason to start a fight
