

Skold Vs. KMFD, Antigeist

Take another look and try to read behind the lines
dig beneath the surface learn to see without your eyes
You will feel my consequence in whatever you decide
your drowning logic tries to swim against the tide

Rifles and bibles, doubters and disciples

I am - revision killing time
I am - delusion by design
I am - the definition undefined
I am - the Anti-Geist

I am - static on the line
I am - the offer to decline
I am - the serpentine align
I am - the Anti-Geist

Worship - Worship - Worship - Nothing
Worship - Worship - Nothing - Nothing

Break it down and tear away the spaces in-between
I know the pain ahead but never intervene
You'll feel my consequence wherever you may be
One down, none to go, god is a machine

Rifles and bibles, doubters and disciples

I am - the virgin in concrete
I am - untouchable elite
I am - the taste of retreat
I am - the Anti-Geist

I am - the total incomplete
I am - lurking underneath
I am - the ultra heavy beat
I am - the Anti-Geist

Worship - Worship - Worship - Nothing
Worship - Worship - Nothing - Nothing

First blood, second sight, the missing frequency
black out, the guiding light, improbability
You'll feel, my consequence, whoever you may be
The world is not black and white but that is all you see
