

# Skrape, Sunshine

Outside it's freezing  
Inside it's cold  
No one to keep me warm  
My bones are old

All day the cold stays  
And someday I won't wait

Sunshine, inject my mind  
Warm me

I can't feel my hands

Sunshine, inject my mind  
Warm me

I sit around and watch the snow  
I see the sun come out then go

I wish this really was not so  
But falling down on the ice  
Means it's melting slow

Sunshine, inject my mind  
Warm me
