

Skrewdriver, Don't Let Them Pull You Down

You're walking 'round the street
And a van slows down
They pull you off your feet
And they knock you 'around

Whoever they are
If it's the Reds or the blues
Well they spit on the flag
When they take it out on you

Chorus:
We're flying the Union Jack
And there ain't nothing wrong with that
We're flying the Union Jack
And there ain't no turning back, White man

Wherever you go, whatever you do
You're always getting picked on
For your Red White and Blue

The judges in the pocket
The best that money buys
And the other sort of leaders
Who wave a Red flag

(Repeat Chorus)

Don't let 'em pull you down
Don't let 'em pull you down
Don't let 'em pull you down
Don't let 'em pull you down

Listen Argentina
We smashed you
'Cos you tried to tried to mess with
The Red White and Blue

And if you try again
We're gonna go for your throat
We will rule the waves
We've still got the boats

(Repeat Chorus)

Don't let 'em pull you down
Don't let 'em pull you down
Don't let 'em pull you down
Don't let 'em pull you down
