

Skrewdriver, Europe Awake

Europe what have they got to do to make you come alive?
What has happened to the heritage that once was yours and mine?
A capitalistic economy, the communists roam the streets.
Old people aren't safe outside, what solution do we seek?

(Chorus)

Europe awake, for the white man's sake!
Europe awake, before it's too late!
Europe awake now!

We've got to wake up pretty soon, and take our nations back.
The race board, and the traitorous politicians should be sacked.
You can't turn on the TV because you know what you're gonna see,
either moaning immigrants, or the lying C.N.D.

We've got to get together soon, and wage our nation's fights.
If we don't act quickly, we're gonna face the endless nights.
We've got to take our nations back, from all the traitorous scum,
you'd better believe it, our day will soon have come.
