

Skrewdriver, Hail Victory

(Diamonds In The Dust)

You stand out from the crowd
With the love for your nation undimmed
Well it seems that your country is crumbling
But you won't stand and let the enemy win

Your duty is to stand firm and steadfast
To stand proud and stand free is a must
You are the light in the darkness
You are the diamonds in the dust
You are the diamonds in the dust
Yeah you are the diamonds in the dust
I said you are the diamonds in the dust...

(Hail Victory)

They keep coming back but we won't go away
We'll never surrender, gonna win the day
They might as well give up, we'll never give in
They'll never beat us, 'cos losing is a sin

Hail! (Hail!) Hail Victory!
Hail! (Hail!) Hail Victory!

Who do these people think they impress?
With their little red badges, peculiar dress
Spouting beliefs we all thought are dying
How can they still believe Das Kapital's lies?

Hail! (Hail!) Hail Victory!
Hail! (Hail!) Hail Victory!

(Instrumental Break)

Hail! (Hail!) Hail Victory!
Hail! (Hail!) Hail Victory!

Just like the lies of the media
Black, White and Red
We're still aware of the reds under beds
Take a big brush, sweep the dirt out
They can try and hide filth, but we know it's about

Hail! (Hail!) Hail Victory!
Hail! (Hail!) Hail Victory!
Hail! (Hail!) Hail Victory!
Hail! (Hail!) Hail Victory!
