

# Skrewdriver, If There's A Riot

Walking down the street, avoiding the cops  
With size ten boots, and a number one crop  
People avoid you as you pass by  
Only the smart ones know the media lies

(Chorus)

If there's a riot, in here tonight  
If you try it, in here tonight  
If there's a riot, in here tonight  
That's bad news

Read the latest slander in the daily news  
Whatever lies that the editors choose  
Stories concocted in a liar's lair  
How could we do it, when we weren't there

You'll find yourself banned from everywhere  
You'll find the criticism real hard to bear  
Keep a strong will, hold your head up high  
Make sure skinheads never die
