

Skrewdriver, Thunder In The Cities

We see corruption at all levels, we know the end is not in sight
Our government is dealing with devil, they've set out to sell out all Whites

(chorus)

There's thunder in the cities, there's thunder in the towns
There's thunder in the villages, as the walls come tumbling down

We see our nation is declining, but people who are Nationalists are few
Too many people are just whining in the wind, but from small acorns mighty oaks grew

One day their evil will crumble, one day corruption will crash down
Before our flags they will be humbled, from our mouths will come the victory song
