

Skrewdriver, When The Boat Comes In

Take no shit from anyone 'cos Great Britain rules
We fight the communists, 'cos communists are fools
Try to take our nation, and give it to the blacks
We won't take it anymore, we're gonna take our nation back

(Chorus)

Nigger, nigger, get on that boat
Nigger, nigger, row
Nigger, nigger, get out of here
Nigger, nigger, go, go, go...

They riot on the British streets, they're burning down our land
But the fools in government put money in their hands
Give them money, give them jobs, ignore the British Whites
We won't stand and watch our land be taken without a fight

Nigger nigger out out! 4x

We've got to love this land of ours, and fight to keep it white
Never going to give it up, 'cos we know we're in the right
And if they try to take it we will fight them to the death
And in the end, the White man wins, 'cos there won't be no rest
