

# Skyclad, The Parliament Of Fools

The Parliament Of Fools

All the seats are taken in the house that makes the rules

All the seats are taken in 'The parliament of fools'

The discontented winter howled, when I first came up to vote

They swept in on a sea of change, but I'm glad I missed their boat

As communities were taxed and torn, utilities got floated

And for eighteen years the 'true blue' cause

prevailed and was promoted

How do you cast your vote in a parliament of fools ?

How do you cast your vote in a parliament of fools ?

How I took me off a college for to learn philosophy

Studied Paine and Machiavellin spin and sophistry

But coming from a county that was redin tooth and claw

For a one-horse-race some lobby-fodder-donkey

was brought forth

How do you cast your vote in a parliament of fools ?

How do you cast your vote in a parliament of fools ?

All the seats are taken in the house that makes the rules

All the seats are taken in 'The parliament of fools'

Armed ith this liberal knowledge, I set off to London town

To see 'the seat of wisdom' and hear justice handed down

Not 'a semblance of normality', an assembly of insanity

I'll not become a member of of this parliament most foul

How do you cast your vote in a parliament of fools ?

How do you cast your vote in a parliament of fools ?

Yes, all the seats are taken and our confidence is shaken

How do you cast your vote in a parliament of fools ?
