

Skye, No Other

Take my hand come with me
See what we can find
Can't go wrong guarantee
I will ease your mind
You can stand or run with me
Leave it all behind
Just one day, I can make it better

All I want. All I need
No other love Just you
No other love than you

If you can, lay with me
Count the stars at night
I don't know much astrology
For you they shine so bright
Make a plan, stay with me
It could be so right
Just one day, I can make it better

All I want, all I need
No other love Just you
No other love than you
No other love Just you
No grealer love than you
