

Skye Sweetnam, Everytime I Thought About Love

I'm you + me and a whole lot more
our love was someth 'in that could've just sored
and i'm here
and i'm near
you'd see me if you could
oh I really wish you would
there's a reason for this song
it's that

Chorus
Everything I thought about love
everything I thought about love
everything I thought about love
is wrong

You x me is a whole lotta math
with you I didn't need to take a bath
and i'm far
and i'm scarred
you'd know how I feel
if you really get the deal
there's a reason for this song
it's that

Chorus 2x

You and me we can't subtract
our love was something we turned back
and i'm scared
and i'm tarred
I love you so much
our love could be a bunch
there's a reason for this song
there's a reason for this song
there's a reason for this song
it's that

Chorus 3x
