

Skye Sweetnam, Girl Like Me

I can't ever shut my mouth
That's just how it is
What I think it just falls out
And I can't help it
I might leave a mess around
You know that's what it is
And there's been times I let you down, yeah
But you're all I got and you're all I want and you know I'm not gonna fake it
Hey, suck it up, this is me
No I just can't pretend, who I am, anyway
Baby what you get is what you see
And this is what you get with a girl like me
Life's a bitch, then you die
Don't wanna live my life
Talk is shit and tellin' lies
I'm never gonna
All the things when we first met
Yeah I was perfect then
It's funny how quickly we forget, yeah
But I'm all you got, and I'm all you want, and I know you're not, gonna break it
Hey, suck it up, this is me
No I just can't pretend, who I am, anyway
Baby what you get is what you see
And this is what you get with a girl like me
Oh come, come, come on now
Don't bite it you know how
I get when you're like this
Let's make it right
Tick, tock, time is precious
You're never something to treat this
Come on we can do this
Right here tonight
Hey, suck it up, this is me
No I just can't pretend, who I am, anyway
Baby what you get is what you see
And this is what you get with a girl like me
Hey, suck it up, this is me
No I just can't pretend, who I am, anyway
Baby what you get is what you see
And this is what you get with a girl like me
