

Slade, All Join Hands

All Join Hands

I remember the time when I saw you

Standing there all alone in a crowd

I remember the time coz we drunk too much wine

We all join hands and we all join hands

So lets all join hands here and now

All the girls get a kiss in the ballroom

All the boys Brahms & Lizst on the floor

I remember the time when we sang Auld Lang syne

We all join hands and we all join hands

So lets all join hands here and now

Have the time of your life when youre younger

And have the time of your life when youre old

Drink the wine feeling fine as we sang Auld Lang syne

We all join hands and we all join hands

So lets all join hands here and now

We all join hands and we all join hands

So lets all join hands here and now

Here and now

Here and now

Here and now
