

Slade, Burning In The Heat Of Love

Sun's above the fire below
The earth is quaking, shimmy shaking to and fro
And if in doubt, you check it out
This crazy thing called love the fuss is all about

I'm burning in the heat driven by the beat
Can't you see I'm burning in the heat of love
I'm burning in the heat driven by the beat
Can't you see I'm burning in the heat of love

I'm cool above, I'm hot below
My knees are knocking, shocking tremelo
We wined and dined and 69'd
This red hot pleasing shot a tingle right up my spine

I'm burning in the heat, driven by the beat
Can't you see I'm burning in the heat of love
I'm burning in the heat driven by the beat
I'm burning in the heat of love

Hey you over there - I remember your eyes
You look so good when they were closed

I'm smoking above, I'm steaming below
My back is aching, busy making ecstasy flow
I'm taking a tip, I finally got hip
The only real L.O.V.E. is caught in my zip ... oww!

I'm burning in the heat, driven by the beat
Can't you see I'm burning in the heat of love
I'm burning in the heat driven by the beat
I'm burning in the heat of love

I'm burning burning burning burning
I'm burning in the heat of love
I'm burning in the fire, that's my desire
I'm burning in the heat of love

Get lucky you teaser - You gonna give me some lip?
Ooh I like your mind - It's your body I can't stand
