

Slade, Don't Talk To Me About Love

Hmmmmm

Ah haw haw, Ah haw haw

A shake of the snake, he's making the break
You show me the door, now tell me some more
Go jump in the lake

I got a hot tip, so now let it rip
There's nothing to lose, the earth didn't move
So button your lip

I said, don't talk to me about love, love, love
No, no, don't talk to me about love, love, love

Oh, boy how you dance, there's ants in your pants
With my kind of luck, a chance of a duck is just half a chance

I said, don't talk to me about love, love, love
No, no, don't talk to me about love, love, love

I look very brave, the closer you shave
Oh, no not again, will you tell me when?
I daren't misbehave

I said, don't talk to me about love, love, love
No, no, don't talk to me about love, love, love

Oh no, don't talk to me about love, love, love
No, no, no, don't talk to me about love, love, love
