

# Slade, Here's To The New Year

Hey lads and lasses come raise up your glasses  
Make sure they're filled up to the hilt  
Going on the brink again  
Buy me a drink then I'll show you what's under my kilt

Chorus

So here's to the New Year

Here's to yourself

Cheers to you far and near

Here's to your health

Hey lads and lasses come raise up your glasses

The parties been rockin' all day

Going on in midnight

And all of us getting tight Big Ben is backin' away

Chorus

So here's to the New Year

Here's to yourself

Cheers to you far and near

Here's to your health

One more wee toddy in our many bodies

I hope she's the same over there

We're gonna let the New Year in

What a noise what a din all put your hands in the air

Chorus

So here's to the New Year

Here's to yourself

Cheers to you far and near

Here's to your health

Chorus

Here's to the New Year

Here's to yourself

Cheers to you far and near

Here's to your health
