

Slade, My Baby Left Me: That's Alright

<!Well my baby left me and never said a word
Was it something I done, something that she heard
You know she left me, My baby left me
You know she even left me, Never said a word

Well I stand by my window, wring my hands and moan
You know the one I love, the one I love has gone
You know she left me - my baby left me
You know she even left me - Never said a word

Well that's alright my mama - That's alright by me
That's alright my mama - Any old way you choose
Oh that's alright (That's alright) - Ooh that's alright (That's alright)
Well that's alright my mama - Any old way you choose

Take it grasshopper

You know that one and one is two - Two and two is four
Ooh you know my little baby, she don't come round no more

My baby left me (That's alright) - You know she left me (That's alright)
My baby even left me - Never said a word (That's alright), (That's alright)

You know my baby left me - Never said a word (That's alright), (That's alright)
You know my baby baby left me - Never said a word

She's gone - solid gone
