

Slade, The Whole World's Goin' Crazee

i said we all get our kicks
playing in a rock and roll band
there's nothing like the feeling
when you give it all you got
and people want to shake you by the hand
blasting through your mind
breaking to your hands and feet
there's nothing like the feeling
when the sound is getting wild
you're jumping up and dancing on the seats
chorus
the whole world's goin' crazee
crazee crazee crazee crazee crazee
the whole world's goin' crazee
crazee crazee crazee crazee crazee
i said yeh, i said yeh
we all get our kicks
playing in a rock and roll band
bring everyone back with you
we want to make you happy
spread the feeling all around the land
forget you're in a mission
we've all come here to rock and rave
loosen up some more
you got to get you in the mood
get rid of all the blues that you have saved
chorus
break
chorus
