

Slapshot, Blast Furnace

Turn off the gasoline turn of the kerosene
Something burns inside of me
Turn of this mean machine
My thoughts are so obscene
My head has no control of me

Blast blast blast blast blast furnace
Blast blast blast blast blast furnace
Blast blast blast blast blast furnace
Blast blast blast blast blast furnace

No form of surgery will cure this cruel disease
Please take this out of me
Try to place my need something to set me free
But I'm my own enemy

Blast blast blast blast blast furnace
Blast blast blast blast blast furnace
Blast blast blast blast blast furnace
Blast blast blast blast blast furnace
