

# Slapshot, War On Drugs

We're fighting a war we can't win  
But it's a war we can't afford to lose  
Corrupt officials play the game  
And America's habit is to blame

???

???

Motherfuckers don't deserve to live  
If they give violence that's what we'll give

Casual user snorting lies  
While another innocent person dies  
Cheap thrills blood spills  
It's a no-win-war and we foot the bill

But there's no way to stop the flow  
Watch your children's habit grow

Intimidation is the game.  
Cut them down they're all the same  
Send em all to hell
