

# Slash, Promise (feat. Chris Cornell)

The first time I ever saw you  
You had that far away look in your eyes  
And heaven's eyes shined down upon you  
And the whole room filled up with light

Now the cruel world it's gonna try and change you  
Try to hang you up and mess with your pride  
Now the rich just try to chain you  
You got to keep your fire burning inside

Promise me  
You won't let them put out your fire  
Put out your fire  
Promise me  
You won't let them put out your fire  
Put out your fire

Now sometimes the world tries to slap you  
And it seems to love watching you fall  
I won't lie to you, it's gonna happen  
You got to pick yourself up and move on

Promise me  
You won't let them put out your fire  
Put out your fire  
Promise me  
You won't let them put out your fire  
Put out your fire

Which star will I be thinking of tonight  
Tonight  
Which star will I be thinking of tonight  
Tonight

Promise me  
You won't let them put out your fire  
Put out your fire  
You won't let them put out your fire  
Put out your fire

Promise me  
(Why don't you)  
Promise me  
(Why don't you)  
Promise me  
(Why don't you)  
Promise me  
(Why don't you)
