Slaughter, Dance For Me Baby

(Mark Slaughter, Dana Strum) Whatever happened to our innocence I'm gonna find a quiet place inside All I wanna do is break down the wall between us And put an end to this foolish pride Don't ya hear by message of love Don't ya know it comes from above Can we find a way to shine an inner light Can we find a way to make it work out right We should meditate a higher conscious Listen in peace, in peace and harmony All I wanna do, all I wanna do Is brighten your darkest days So do you hear my message of love Don't ya know it comes from above Can we find a way to shine an inner light Can we find a way to make it work out right Can we find a way to let it shine, let it shine Can we find a way to intensify your mind I'll take your pain away and give you all of me I'll let you in my world unconditionally I see you in my dreams smiling in my mind Whispering my name, let it shine, let it shine
