

# Slaughter, Tongue N' Groove

(Dana Strum, Mark Slaughter)

You live your life tryin' to make ends meet  
Just one mistake and then you're out in the street  
Growin' tired, but you keep hangin' on  
Here's a message to you my friend  
Just search, you'll find the way

[CHORUS]

Now you're on your own, anywhere is your home  
Keep on movin' on  
Don't look back, just be strong  
Now your life is your own  
Keep on movin' on  
Times they change  
It's so simple you don't realize  
You get those chances only once in your life  
Alone and cold, but you keep hangin' on  
Here's a message to you my friend  
Just search, you'll find a way

[CHORUS]

Times they change my friend (change)  
If it was up to you, you'd never see the light  
It makes no difference--ain't that right  
But now you're really seeing what I'm talkin' about  
Hey, you change those ways, oh yeah

[CHORUS]

Times, they'll change my friend (change)

[CHORUS]

Times will change
