And when morning comes
Up all night, sleep all day
Up all night, sleep all day
When evening comes I am alive
I love to prow! around in the streets
It's the moonlight that controls my mind
Now I've got the power to speak

[1]:

Awake from dusk to dawn

Watching the city lights

Stars are shining down

They'll be shining down

On you and I

And when the morning comes

And I'll hold you

'Til the morning light

Everybody sing it now

Up all night, sleep all day

Up all night, sleep all day

[END 1]

Driving down the boulevard

All alone

The neon signs

Are calling your name

Find me in the corner

Having the time of my life

You'd think you'd wanna do the same

[REPEAT 1]:

Up all night, sleep all day

Up all night, sleep all day

Maybe we can just stay up

Twenty four hours a day

[REPEAT 1]:

Up all night, sleep all day

Up all night, sleep all day

(Land where my fathers died

Land of the pilgrim's pride

From every mountain site

Let freedom ring)
