

# Slaves On Dope, Nothing

I looked at what I...

Thought you were faking

Then I put up the walls I've been making

Its so clear, That pushing you away, Could be the only way

Its so clear, That all the mindless games, Could only fan...

I looked at what I...

Thought you were saying

Distance is not the cause, Its in the wanted

Don't get to caught up, In what I'm saying

Its so clear, That pushing you away, Could be the only way

Its so clear, That all the mindless games, Could only fan the flames

Its so clear, That all I need is right here, But im to blind to see it

And I should try to stay here, But I'm to scared to do it

I looked at what I...

Want from you now

Its so clear, That pushing you away, Could be the only way

Its so clear, That all the mindless games, Could only fan the flames

Its so clear, That pushing you away, Could be the only way

Its so clear.
