

Sławek Uniatowski, We Are Stars

We're livin' day by day,
walking on the ground
Will we live again?
I'm askin' round and round

Who we really are?
What we're livin' for?
Never been that far
but I just wanna know

What we're fighting for
every time we die?
Of that I'm never sure
when people say goodbye

Never in my life
have I been so keen
on finding who we are
and that is what I mean

Who we are?
D'you know - we are stars?
D'you know, know who we are?
D'you know we are stars?

Looking at the sky
I know it is devine
We are like the stars
'cause we know how to shine

We know how to lift
and we know how to fall
Like the stars I see
from here they seem so small

And when they're falling down.
they're brighter than the sun
I see them round and round
everytime he die

We are like the stars
We shine and then fall down
And every little while
we'll be out of time

Who we are? D'you know We are stars
D'you know, know who we are? D'you know we are...

Stars x8

And who are we? D'you know, know we are stars
D'you know, know who we are? D'you know, know we are stars
