

# Slayer, Abolish Government/Superficial Love

Abolish government  
There's nothing to it  
Forget about God  
He's no innocent  
We live by a system  
Of perfect goals  
People vs. people who are bored and old

Life must rest on the man who represents

Looking for nothing in this  
Campus with just friends  
President the name  
President the label  
The highest man on the government table

Superficial love only for a fuck  
But love is incest and it's only for a fuck  
To the guys provided free  
Peace time war time country's in vein

All die for this land some over seas  
I live for the summons serve my country  
Army, Navy, Air Force or jail  
To the guys provided for free  
Peace time war time country's in vein

But that's the American way what it is to be free  
If that's what they call freedom it's not for me

Suck my motherfuckin' dick
