

Slayer, Payback

You need to take a closer look at me
Cause I was born to be the thorn in your side
No matter what you think you're gonna see
You never wanted this barrage of fucking pride
You don't want none of me

You've got a fucking catheter in your brain
Pissing your common sense away
When you draw first blood you can't stop this fight
For my own peace of mind - I'm going to
Tear your fucking eyes out
Rip your fucking flesh off
Beat you till you're just a fucking lifeless carcass
Fuck you and your progress
Watch me fucking regress
You were made to take the fall - now you're nothing
Payback's a bitch motherfucker

You only live to be a parasite
Your life must suck when nothing's going your way
Everything melts away before your eyes
You're just a punk that doesn't have the sense to get away
Get the fuck away

You've got a fucking catheter in your brain
Pissing your common sense away
When you draw first blood you can't stop this fight
For my own peace of mind - I'm going to
Tear your fucking eyes out
Rip your fucking flesh off
Beat you till you're just a fucking lifeless carcass
Fuck you and your progress
Watch me fucking regress
You were made to take the fall - now you're nothing
Payback's a bitch motherfucker

I will never become your fucking scapegoat
I don't know how it feels to come up short
I only want vengeance
To come shining down on me
I don't want you to die
Before I get the chance to kill you myself

You've got a fucking catheter in your brain
Pissing your common sense away
This is for the mindfuck
This is for the hell of it
This is for me- I'm going to
Tear your fucking eyes out
Rip your fucking flesh off
Beat you till you're just a fucking lifeless carcass
Fuck you and your progress
Watch me fucking regress
You were made to take the fall - now you're nothing
Tear your fucking eyes out
Rip your fucking flesh off
Beat you till you're just a fucking lifeless carcass
Fuck you and your progress
Watch me fucking regress
You were made to take the fall - now you're nothing
Now you're nothing
