

# Sleepaway, From My Bed To Yours

She says Dont try, cause its all over  
but my voice still rings throughout her mind  
For you there is still something better  
but for me, old notes replayed and valentines

From my bed to yours from my city to your shores  
Theres a song you can sing to remember when

Hearts crawled through phone calls, closer everyday  
When you need love Ill be too far away  
Shell call I wont fall, she wont hold on today  
When you need me Ill be too far away

Go now, the night is young  
Downtown to drink it all away  
Go out, yea you know better  
than to throw all your love away

From my bed to yours, from my city to your shores  
Theres a song you can sing to remember when

Hearts crawled through phone calls, closer everyday  
When you need love Ill be too far away  
Shell call I wont fall, she wont hold on today  
When you need me Ill be too far away

When your heart is set on staying in this town I know youll stay When your heart is set on staying in
