

# Sloth, All We Know

All we see is all we know  
And all we know we see  
Deep inside I thought you knew me  
All we know we see

All the seeds we've planted grow  
Into our New Orleans  
Lonely faces staring at me  
All we know we see

:Chorus:  
Now I am the one who  
I am the one who sees through you

All the steeples standing proud  
In spite of darker days  
Blues keep raining  
Child's playing  
All we know we see

:Repeat Chorus:

Now I am the one who  
I'm trying to find you  
Standing beside you  
I am the one who sees through you

All we see is all we know  
And all we know we see

:Repeat Chorus:

Now I am the one who  
I'm trying to find you  
Standing beside you  
I am the one who sees through you  
I am the one who  
Who sees through you
