

Sloth, Dead Generation

We are a dead generation
No one's gonna cry for you now
No one's gonna cry for you now
They are gonna sit back
Drinking their martinis while you rot

We are all dull and sedated
The real is gone
Our light is fading

We are a dead gena-
We are a dead generation
No one's gonna cry for you anymore
Stop waiting for someone
Someone to come along and save you from yourself

More....
More....
More...

We are a lost generation
When will I see?
They are gonna sit back
Watching until there's no one left to rot

We are a dead generation

We are a dead gena-
We are a dead generation
No one's gonna cry for you anymore
No one's gonna cry for you anymore
Stop waiting for someone
Someone to come along and save you from yourself

More....
More....
More....

We are a dead generation
We are a dead generation
No one's gonna cry for you anymore
No one's gonna cry for you anymore
