

Sloth, Myself

I think I've had enough
Of useless, shameless point of views
I think we've had enough
I just can't take anymore of you

:Chorus:
I will never be what you wanted me to be
I am the one you lost
I am the one forgotten
I have myself
I have myself

Get through a new day
I'm not listening to a word you say
I don't like this
You're never complacent
I'm tired of you

:Repeat Chorus: (3 times)
