

# Slowdive, Brighter

She don't understand you  
Her birth made of grain  
She can now see the sun  
And everyone said, yeah  
You're better off dead but  
She didn't know we were alone  
And when it all looks brighter  
Just turn around and smile  
When it's looking better  
Just leave it all to time  
Just leave it all to time  
She said don't you know, yeah  
There's people in places  
And places is what made her see  
And everyone said yeah  
She's better off dead but  
She looked like she wanted to live  
And when it all looks brighter  
Just turn around and smile  
When it's looking better  
Just leave it all to time  
Just leave it all to time  
When it all looks brighter  
Just turn around and smile  
And when it's looking better  
Just leave it all to time (repeat 3)
