

# Slowdive, Holding Our Breath

feels like all the days are gone  
just catch the breeze  
you know you've had your fun  
rain washes waves down  
and i, i want the world to cry  
and i, i watch the winds you fly  
you can't believe in everything  
you can't believe it all  
hey are you feeling something new  
just watch the way  
it helps in all you do  
the breeze it blows  
it blows everything  
and i, i want the world to cry  
and i, i want the sun to shine  
you can't believe in everything  
you can't believe it all
