

# Sly & The Family Stone, In Time

There's a mickie in the tasting of disaster  
In time □□ in time you get faster  
Harry Hippie is a waste as if he hasta  
procrastanatin'  
Something moving in the brain of a doer  
In time □□ in time feel a little newer  
I switched from coke to pep and I'm a connoisseur  
'Bout time  
'Cause there's a method in the madness of the thinking  
In time □ oh we oughta  
It seems the best of all the sadness is is a sinkin'  
In time □□ in time muddy water  
And there's a wreck yard in the mind of a quitter  
In time □□ in time gonna git bitter  
He don't give a heck or is he blind and makin' litter  
In time □  
'bout time gonna need a babysitter  
I felt so good I told the leader how to follow  
In time □□ in time git down  
So glad I could not feel indeed so very hollow  
No need to follow  
Insecurities attracting every flirter  
In time □ in time it's murder  
If you don't mind please why give slack to a deserter  
In time

Well well oh well day light is all I see  
stay light and wait for me  
See you tomorrow noon miss me  
I'll see you soon

I told you it's not the teachin' it's the learning  
In time □□ in time don't need no burning  
When I mold you to start reaching in the mernin  
In time  
Well well there's a feeling oh so real in every human  
On time □□ 'bout time  
There's a reeling when you don't know what you're doing  
In time 'bout time

Haay stay around get a show in time  
don't you know  
Two years too long to wait  
Two words will get it straight  
In time  
See an answer in time and that ain't nothing I'm a dancer  
Two years too long to wait  
Two words will get it straight
