

# Smash Mouth, Space Man

There you go around your tiny world again  
Playing space man in your silver ship  
You say you wanna come back down to earth again  
When you're down you find your mind and slip

There you go  
Just like all the other times before

Lost in space  
You're lost in space

Antigravitation keeps you high above  
Like some comet speeding towards the sun  
Communication's lost between the ones who love you  
It's impossible to think that something loves you more than us

There you go  
Just like all the other times before

Lost in space  
You're lost in space

There You go  
Just like all the other times before

Lost in space  
You're lost in space-x3
