

Smash Mouth, Your Man

I don't know why I'm with you
The only right thing I do
Is get along with you
And days go bye-bye for you,
But they fly by for me
It's true

I talked to you late last night
You said it wasn't alright,
But it would be alright
And when you sleep by yourself,
You're not alone, I'm with you
Ooh wee ooh

But you weren't listening
When I told you everything
That you need I ain't got
You should be gone by now but you're not

I play guitar all night long
And I know hundreds of songs,
And I'll just play them all
And even when I get home,
Somehow you're still alone
It's true

I don't know why you're with me
The only reason I see
Some sort of fetish thing
Some people like to be pleased
And some like to be teased
Which are you?

I tried to
Warn you
But you said
Just play dead
As long as
We stay true

But you weren't listening
When I told you everything
That you need I ain't got
You should be gone by now but you're not
But you're not

Did your head not receive
The shape of everything
That you are and I am
I should be happy as your man
You know I am

I play guitar all night long
And I know hundreds of songs,
And I'll just play them all
And when you sleep by yourself,
You're not alone, I'm with you
As long as
We stay true

But you weren't listening
When I told you everything
That you need I ain't got
You should be gone by now but you're not

But you're not
But you're not
But you're not
But you're not
But you're not
