

Smash The Statues, Useless Slaughter Of The D

Bloody hands on bloody corpses
Just to fulfil your taste
The taste of death that satisfies
Not thinking about what you eat
Controlling life of other animals is not human's privilege
So stop the killing
Change your life
Don't take life that you don't need

Inside your hearts you know meat is murder
It's not enough to make a real change
Think for yourself, there is a better way

Why silence the ones who have no voice?
They are already silenced
We all behave so supreme
This goddamn human greed
Open eyes will set you free
It's not too late to make the change
So stop the killing
Change your life
Don't take life that you don't need

Release the animals right now!

It's time for some action
There's no need for hypocrisy
There is a better way
Together we'll make a change
