Smashing Pumpkins, Autumn Nocturne

Rollin' with the breeze Do what you please I guess you'd say We'll take the whole day Skip out of school Run around and act like the fools that we are Ain't gonna do anyone any harm Train whistle at our backs Laid our pennies down the tracks Forget our cares I guess you'd say We'll take the whole day Go for a swim Dry off in the wind The sun's goin' down so we better get back It's too easy to stay So lazy, hazy, maybe crazy Rollin' with the breeze Do what you please So take it easy, yes, please Strollin' with the leaves
