## Smashing Pumpkins, Believe

Close your eyes Until the sunlight dies In your head a thousand stars Through the darkness you can see a light And if they steal your life Your heart is still mine

I want to believe in you and I heard you Your song, you sing, a truth, there's no other I want to believe in you, dear

On Sunday...

There's a life I hide Well I tried to disguise And I can take you a million miles away

I want to believe in you and I heard you Your song, you sing, a truth, there's no other I want to believe in you, dear

On Sunday I made amends For all my mistakes May God speed be with you

Oooh...oooh...oooh...oooh and I...

I want to believe in you and I heard you Your song, you sing a truth, there's no other I want to believe in you and I heard you Your song, you sing a truth, there's no other I want to believe in you and I heard you Your song, (soft) you sing, a truth, a lover I want to believe in you and I heard you Your song, you sing a truth, there's no other I want to believe in you, dear Sunday I want to make amends For all my mistakes May God speed be with you
