

# Smaxone, Regression

Regression..  
Travelling high  
Through a dusty light  
Caught in time  
Caught in fear and fright  
Victim of an outrageous crime  
You can't control the time

Don't you cry  
I'll look out for you  
Though I'm on the other side  
You'll get by  
Listen to the wind  
I'm there right by your side

And I won't go  
Leave you on your own  
I'll never leave you alone  
They can't take my soul  
I'll die another day

I see the darkness  
Of eternal night  
My minds cut with  
A switchblade knife  
Need to get even  
Need to see the eyes  
The terror burned  
And took away my life

Time goes on  
You'll grow up  
My image is inside your sun  
Be the one  
To carry out my name  
I'll live inside your flame

I won't go  
And leave you on your own  
They can't take my soul  
I'll die another day

Do always walk on  
Down the right path  
Do always walk on  
Never look back

And I won't go....  
And I won't go....  
I'll die another day
