## Smile Dk, Dragonfly

Like a warm summer day Like a warm day in May Babe you make me feel so hot

Like a small butterfly Like a bird in the sky Feels like a star that I'm not

You told things that I never knew So what am I suppose to do Running around like a little kid One-Two-Three and I'm hit hit hit

Like a dragonfly flying high in the sky There is light above and beyond you and I Like a dragonfly flying high in the sky There is light above you and I

Like a small paradise Like a scent of a spice Yes I guess I understood

Like a flower so sweet Like a lover and me Boy you make me feel so good

You told me things that I never knew So what am I suppose to do Running around like a little kid One-Two-Three and I'm hit hit hit

Like a dragonfly flying high in the sky There is light above and beyond you and I Like a dragonfly flying high in the sky There is light above you and I

Like a dragonfly flying high in the sky There is light above and beyond you and I Like a dragonfly flying high in the sky There is light above you and I

Like a dragonfly flying high in the sky There is light above and beyond you and I Like a dragonfly flying high in the sky There is light above you and I

Like a dragonfly flying high in the sky There is light above and beyond you and I Like a dragonfly flying high in the sky There is light above you and I
