

Smile Empty Soul, Vultures

When all the fish are in the game
And everybody looks the same
It's hard to tell if they're your friends
They'll never be there in the end

[chorus]

That's why I hate the smiles and I hate the flies

That buzz around the bullshit

I can't wait to die so all the mouths

Of the vultures can be fed

They only care when you're on top

They'll fuck your girlfriend when you're not

Live off your blood live off your pain

And when you're gone forget your name

[chorus]

My life is not a fucking game

My life is not a fucking game

Fuck you my life is not a game

Fuck you my life is not a game

[chorus]
