

# Smith Michael W, Don't Give Up

Michael W. Smith and Brent Bourgeois  
I remember when you took a stand  
But those days don't last  
Sweet dreams die fast  
A stumble when you walk on the wire  
When all your friends  
Start caving (giving) in  
The flames are burning higher and higher

Chorus:

Don't give up Andrea  
Got the whole world at your feet  
Just keep on - holding on  
This is where you need to be  
All the days that you've been spending  
Spinning while your heart's descending  
Like a stone in the ocean  
Sometimes when you think the world is ending  
It's really just a new beginning  
The other side of emotion  
But I've seen your eyes  
There's no compromise  
When you set your mind on the matter  
Be strong through the tears  
And your sight will clear  
You're gonna get what you're after  
Don't be surprised when the road divides  
(Just) take the one less traveled by
