

# Smog, Left Only With Love

I'm left only with love for you  
You did what was right to do  
And i hope you find your husband  
And a father to your children

'Cause I'm left only with love for you  
You did what was right to do  
And I hope you find your husband  
And a father to you children

When I lost you  
I lost my family  
You did what was right to do  
And I hope you find your husband  
And a father to your children

'Cause I'm left only with love for you  
You did what was right to do  
An I hope you find your husband  
And a father to your children
