

# Smogus, Act It

Thanks for calling me an asshole  
You did your job right  
You want a major deal  
You've a fistfight  
But I think you've misjudged me  
You're the wrong side  
Any last regrets you're going down tonight  
Think about us just a few years ago  
Who would've thought you're gonna get this low  
Am I the only one who's using his brain  
Using sanity to reason without getting insane  
Well fuck you  
I'm throwing you a hitch bitch  
You think running over my back could make you rich  
And I even thought you's my friend  
I picked you off the street  
Helped you pay the fucking rent  
Well I gave you a choice and I guess I was wrong  
To even gave you on  
'S going on to long  
For way to long you've been sucking the bong  
Hooking the pills too wasted to move your tongue

Well you said that you're at it  
Then why the fuck I think you act it

Now what was that  
You want me to forgive you  
Well I already forgave you one time  
I want nothing to do with you  
So now you think me evil say the devil is playing me  
I don't believe in a god  
So he must be inside of me  
I ain't no good Christian so forgiving ain't my game  
You want abso(fucking) lution try asking a saint  
You fucked me over  
Time after time  
Saying you 's done with that shit  
You were a friend of mine  
You've fucked bad enough so I could write this rhyme  
Yeah, bad enough, and just a waste of time

When I look in your eyes I feel nothing  
I won't even get cold when you're shivering  
I gave you up long, long ago  
I gave you a choice but you've just said no

I'm going home, leave you alone  
This is the last time that you have fucked me  
I'm staying strong, let you go on  
Pretending you're dead would be best for me

Now all serious, what do you expect from us  
That we would roll on our backs  
Let her fuck us like dogs  
We let her go no revenge and still you're calling us smugs  
My inside is screaming knowing what to do  
When I get my hands upon her she would be trough  
'Cause I would take a needle and staple her eyes  
Make her blind but let the ears remain fine  
But I'm a reasonable man, so I let my inside my inside  
Forget her live on keep my dignity aside  
With no more hard feelings for a junky who's through  
Nothing but misery for me and you so
